

How to Apply for a BAC ride

1. Only current club members can apply to participate in club rides.
2. Members desiring to go on a ride should first carefully evaluate the ride descriptions posted on the club website to determine if the ride desired is suitable for their experience and riding ability. Then the member clicks on the sentence under the description of the ride that says "I want to go on this ride" or, in the case of co-members, "We want to go on this ride." (Note: when the ride is full, your options are "Please add me/us to the waitlist.") This will notify the Ride Director or Ride Coordinator of the member's interest and will immediately put the member on the waitlist for the ride.
3. When a member is registered on the waitlist, the Ride Director or Coordinator is automatically notified of the member's interest. The Ride Director or Coordinator may contact the interested member directly by either email or telephone to assess the member's experience and suitability for the ride.
3. Ride Directors and Coordinators select ride participants from those people who have asked to participate. Ride Directors and Coordinators have complete discretion in determining who to select as participants. They may base their decision on the member's experience, collegiality, service to the club, order of signup, rooming requirements or other factors which the Ride Director or Coordinator determines to be significant.
4. All questions concerning a particular ride should normally be addressed to the Ride Director or Coordinator and not to the club office. The club office does not administer individual rides.
